

*As **real** as it gets...*

TRAINING AMMUNITION | FIREARM CONVERSIONS | PERSONAL PROTECTIVE EQUIPMENT | PORTABLE TRAINING FACILITY

Ultimate Training Munitions

As real as it gets...

Ultimate Training Munitions (UTM) was founded with a mission to produce the most technologically advanced, non-lethal training ammunition in existence. By safely converting service or duty firearms and using precision engineered training ammunition, UTM products allow military and law enforcement professionals to 'train as they fight' for the most realistic, force-on-force training possible.

Though the original zinc cased rounds were a success, UTM later pioneered a new and improved aluminum cased round. This innovative design completely revolutionized the industry with its unprecedented consistency and reliability. The breakthrough engineering and quality of UTM quickly gained recognition after it was tested by the United States Military and achieved a 99.8% reliability rating. The result of this

accomplishment was UTM being awarded a major US Department of Defense contract for their Close Combat Mission Capability Kit (CCMCK) program supplying 5.56mm loose and linked marking ammunition to the United States Army.

Since then, UTM has continued to set new quality and performance standards for non-lethal training ammunition (NLTA) and firearm conversions. UTM products, including force-on-force personal protective equipment (PPE), have been utilized globally by militaries, law enforcement and professional training organizations. Additionally, UTM has begun offering its cutting edge products to responsibly armed citizens seeking a safe and realistic alternative to live fire training.

Ultimate Training Munitions manufactures an array of training ammunition and over 150 firearm conversions in Suffolk, United Kingdom. With over a 100,000 square feet of state-of-the-art manufacturing space and its fulfillment warehouse in Brownsville, Texas, UTM is poised for unlimited growth in production and technology!

UTM assumes no responsibility for injuries, loss or damage resulting from misuse of any of its products.

When converting back to live-fire ammunition, ensure that the chamber and bore have been cleaned, cleared of all debris, objects or projectiles and inspected before firing a live round. Failure to ensure the barrel is free from obstruction could result in damage to the barrel and/or injury to the operator.

Appropriate hearing and eye protection (safety glasses or goggles) is mandatory

WARNING

KEEP AMMUNITION OUT OF REACH OF CHILDREN

MAN MARKING ROUND (MMR)

Non-Lethal Ammunition for Realistic, Force-on-Force Training

- ▶ The United States Military rated UTM 5.56mm Man Marking Rounds (MMR), both loose and linked, as 99.8% reliable!

PURPOSE:

- For force-on-force, close quarter battles (CQB) and 360 degree shooting
- Adds stress and realism to training
- Provides physical stimulus and visual indication upon “hits”
- Training “As real as it gets” without using live ammunition

FEATURES:

- Wax based color compound marks on angled hits
- Assortment of marking colors available
- No plastic shavings or bore build up
- Driving band technology for improved accuracy
- Projectiles are resistant to breakage when inserted in a magazine

 UTM MAN MARKING ROUND (MMR)

**TRUSTED WORLDWIDE BY MILITARIES,
LAW ENFORCEMENT AND PROFESSIONALS**

The Man Marking Round (MMR) enables militaries, law enforcement personnel, and professional trainers to conduct the most realistic, non-lethal training possible. Trusted by militaries worldwide, utilized by professionals everywhere, UTM's Man Marking Rounds are extremely accurate, mark on glancing hits, and are sure to surpass expectations. Using your weapon and its accessories makes this the best way to train.

**BENEFITS OF USING UTM'S
FIREARM CONVERSIONS & TRAINING AMMUNITION:**

- Use YOUR firearm and accessories such as lights, lasers and optics
- Consistent velocities
- Unmatched accuracy
- Realistic recoil
- Extremely reliable
- Shoot virtually anywhere, without the need for a live-fire range
- Normal functioning and cycling of the weapon including bolt or slide lock-back
- Matches live-fire cyclic rates
- Minimal fouling of the firearm
- 5 year shelf life on training ammunition
- Lead free options
- Low emissions and minimal environmental impact

► **UTM 5.56mm Man Marking Round**

- Chosen as the sole supplier for United States Military Services for over 10 years

► **The ULTIMATE in Accuracy**

- 5.56mm caliber performs a 1.97" group at 27 yards
- 9mm a 1.97" group at 11 yards

**COMPONENTS OF A
UTM MAN MARKING PROJECTILE**

- 1 An aerodynamic, cruciform dome made of injection molded plastic
- 2 Non-toxic, inert, wax based marking compound
- 3 Inertia applicator ball expels the marking compound even on glancing hits
- 4 Driving band utilizes the barrel's rifling for increased accuracy

BATTLEFIELD BLANK ROUND (BBR)

A Noisy Blank for Safe and Realistic Training

PURPOSE:

- Simulates the sound of gunfire during scenario training such as "active shooter" tactical drills
- Run scenarios and drills without having to gear up
- Introduce new shooters to the handling and operations of a firearm

FEATURES:

- Provides a realistic report or "bang"
- No blank firing adapter (BFA) required
- No heat or flame emitted
- 18" stand-off distance

SILENT BLANK ROUND (SBR)

The Ultimate in Safety, with No Noise or Emissions

PURPOSE:

- Practicing gun retention and weapon take-aways
- CQB in administrative areas
- Replace the red gun for defensive tactics
- Develop shooting fundamentals at home or in the classroom
- Dry fire alternative

FEATURES:

- Safe for contact shots
- No noise or emissions
- Recoil, ejection and slide lock back
- No blank firing adapter (BFA) required
- No hearing protection required

NON-MARKING ROUND (NMR)

Force-on-Force Training Round with No Marking Compound

PURPOSE:

- A non-marking round designed for force-on-force, close quarter battles (CQB) and 360 degree shooting
- Adds physical stimulus upon "hits"
- Improves accuracy and marksmanship skills

FEATURES:

- Non-marking; ideal for force-on-force training in full uniform or while training with field gear
- Same use as Man Marking Rounds with no clean up

4.6mm NMR

Non-Marking Round

UTX[®] MARKING ROUND

Marking Round for Existing Firearm Conversions

PURPOSE:

- For use with your existing firearm conversion
- For force-on-force, close quarter battles (CQB) and 360 degree shooting

FEATURES:

- No plastic shavings or bore build up
- Driving band technology for improved accuracy
- Inertia ball expels wax-based marking compound even on glancing hits
- Flawless reliability
- Projectiles are resistant to breakage when inserted in a magazine

FIREARM CONVERSIONS

OVER 150 FIREARM CONVERSIONS AVAILABLE

- ▶ Convert YOUR firearm within seconds
- ▶ Live round lock-out or off set firing pin as a safety feature
- ▶ Available for the widest breadth of firearms
- ▶ Tested and proven to be safe and reliable
- ▶ Operates under direct blowback
- ▶ Compatible with existing accessories such as lights, lasers and optics

- RIFLES:**
AR15/M16/M4, AK-47, H&K, SCAR, and many more
- SEMI-AUTO PISTOLS**
- REVOLVERS**
- PUMP SHOTGUNS**
- BULL-PUPS and CARBINES**
- SUBMACHINE GUNS**
- BELT FED MACHINE GUNS**

For video tutorials on how to install a conversion, visit UTM's website:

The **ULTIMATE** in **SAFETY** ...

PISTOL CONVERSIONS

UTM pistol conversions won't allow a live round to fully seat into the barrel, leaving the pistol out of battery and impossible to fire.

RIFLE CONVERSIONS

Off set firing pin in UTM rifle conversions discharge only rim-fire rounds; a live, center-fire round will not fire.

A live 5.56mm round that was struck by a UTM rim-fire/off set firing pin, missing the center-fire primer

When an AR15/M4 UTM conversion is installed, the dust cover will not close. This is a visual confirmation that the firearm is safe.

UTM AR15/M4 magazines are shorter than conventional magazines. Blue has become the industry standard for easily identifying a training firearm.

PORTABLE TRAINING FACILITY (PTF)

A Portable, Versatile and Easy to Set Up Training Facility

PORTABLE TRAINING FACILITY (PTF)

Lightweight, yet durable aluminum components are fully connectable to create multiple configurations.

UTM'S Portable Training Facility stores conveniently in roomy, ergonomic travel bags.

UTM's exclusive Portable Training Facility (PTF), is engineered to be the most versatile, portable shoot house available.

- ▶ Quick, easy set up and disassembly
- ▶ Average set up less than one hour with two people
- ▶ Break the typical floor plan memorization
- ▶ Generously mapped with hook and loop fasteners for joining walls, attaching roofs, windows, or hanging targets
- ▶ Transparent and/or shoot through windows
- ▶ Optional ceiling package available for low light training and/or better containment of projectiles

Can be used in a variety of training programs including door entry, hallways, cover management, cornering, UTM firearm range drills and much more.

PTF Package Contains:

- ▶ 12 Solid Wall Panels (8'x8')
- ▶ 20 Right Angle, 20 Five-Way Unions, 36 Straight Unions, 8 Short and 82 Long Poles
- ▶ 2 Functioning, Hinged Doors
- ▶ 2 Window/Door Panels*
- ▶ 2 Transparent Window Panels
- ▶ 4 Hook and Loop Fastener Lined, Large Target Holders
- ▶ 100 Bungee Cords for Securing Panels to Framing
- ▶ 23 Slip-on Rubber Feet
- ▶ 50 Hold-down Stakes
- ▶ 2 Stake Bags
- ▶ 5 Travel/Storage Duffel Bags

**Window/door panels can also create open, shoot through windows*
